

SATURN SURFACE MOUNTED LED FIXTURES

Class I IP65 IK08

Available in any of these RAL colors

The Saturn is specially designed to deliver low glare LED lighting to steps, open areas, corridors and pathways. The fixture has a die cast aluminium body painted with electrostatic powder paint. The narrow depth of 25mm, which also includes the LED driver, allows the fixture to be installed in any wall. A plastic recessing box is included for installation into concrete. A specially developed potted power cable is used to effectively bond with the cast resin and stop any water ingress. The COB LED used comes in 2 different tones of white, 3000K and 4000K.
